

MOHAMAD DENI YULIO

FULL-STACK DEVELOPER | IT SUPPORT

Location: Bandung, West Java, Indonesia | Email: mdeniyulio@gmail.com | Portfolio: [mdeniyulio-portofolio.vercel.app](#)

PROFESSIONAL SUMMARY

Vocational High School graduate in Software Engineering specializing in Full-Stack Web Development with an AI-native development workflow. Proficient in leveraging AI assistants (ChatGPT, Gemini) and AI-powered IDEs for code generation, prompt engineering, refactoring, and technical debugging. Hands-on experience building enterprise web applications (Transport Management System & Billing Monitoring) using PHP (Laravel), JavaScript/TypeScript (Node.js, NestJS, React, Vue.js), and MySQL. Supported by foundational skills in Windows OS installation, computer hardware, and networking concepts, with strong experience in version control (Git/GitHub, GitLab) and Docker.

TECHNICAL & IT SKILLS

Programming Languages	PHP, JavaScript, TypeScript
Web Markup & Styling	HTML5, CSS3
Frameworks & Libraries	Laravel, NestJS, Node.js, React.js, Vue.js, Vite, Alpine.js
Database & Version Control	MySQL, RESTful APIs, Docker, GitHub, GitLab, Laragon
AI Development Tools	Proficient in ChatGPT, Gemini, and AI-powered IDE workflows for Prompt Engineering, Code Refactoring & Optimization
Hardware & IT Support	Windows OS Installation & Configuration, Computer Hardware Fundamentals, Hardware/Software Troubleshooting
Networking & Systems	Computer Networking Fundamentals, Basic Systems Administration
Productivity Software	Microsoft Office Suite (Word, Excel)
Core Competencies	Full-Stack Web Development, AI-Driven Development, IT Support Fundamentals, Technical Debugging, Adaptability

WORK EXPERIENCE

PT. Arkamaya — Software Developer Intern	Aug 2025 – Nov 2025
- Designed and developed frontend and backend features for a web-based Transport Management System both independently and collaboratively. - Built a Billing Monitoring web application to streamline real-time transaction tracking and structured financial reporting. - Integrated RESTful APIs and optimized MySQL database queries to improve application responsiveness and performance. - Performed technical debugging, issue identification, and software troubleshooting to ensure system reliability and stability. - Utilized GitLab and GitHub for version control, repository management, and team collaboration.	

TECHNICAL PROJECTS

Point of Sale (POS) / Cashier Application — Competency Exam / Portfolio Project	2026
- Developed a web-based cashier system featuring multi-role access control (Cashier, Manager, Supervisor) using Laravel and MySQL. - Implemented a responsive user interface and visual optimizations to ensure fast, stable, and accurate transaction workflows.	

EDUCATION

SMK Angkasa 1 Margahayu	2023 – 2026
Vocational High School Diploma in Software Engineering (RPL)	

CERTIFICATIONS & TRAINING

Software Developer Internship Certification	2025
PT. Arkamaya
